“As a Zen teacher I offer practices that help students realize what the Buddha realized—that all things are interdependent. Nothing is a ‘thing’ separate from the contingent flow of the whole. I often say that there is nothing but relationship, and waking up helps us live that reality. Nogie does something even more challenging in *The Currency of Connection*. She makes it abundantly clear that money isn’t a thing either. It is a practice mirror, and it will teach us about ourselves if we are willing to look, listen and tell the truth. She will convince you that money is actually an energy that fosters connection, and in the world in which we live, that is a relationship worth fostering.”

- **Flint Sparks, PhD, Zen teacher and clinical psychologist**

“This engaging, heart-felt and practical book comes at a very appropriate moment in time as the USA deals with the after-effects of the worst recession in three generations and the most expensive round of political campaigns in history. Nogie King daringly and lovingly provokes, inspires and cajoles each of us to see Money in a whole different light and change our relationship with it forever. She exemplifies the authenticity, connectivity, caring and partnership that she wants us to have with Money in the future. This book drills down to the core of the human condition. Read it from start to finish with an open mind and an open heart and your life will be transformed.”

- **Jeremy Solomons, independent leadership consultant and former private banker for two leading Wall Street firms**

“This is an incredibly timely piece of work.”

- **Samantha Tan, partner in the Meristem Group**

“This book is like a flowing conversation with a really kick-ass coach! Nogie King really understands the struggle we all face when it comes to dealing with money. Whether it be the self-sabotaging behaviors which keep us in debt or the guilt that we may feel by having abundance when others aren’t as fortunate, *The Currency of Connection* introduces an important new way of being in a loving, healthy relationship with your money and finding a path to self-discovery and self-reliance. If you are truly serious about finding success and having your money work for you, rather than the other way around, you owe it to yourself to not only read this book but to begin putting its strategies to work for you immediately!”

- Steve Harper, author of *The Ripple Effect: Maximizing the Power of Relationships for Your Life and Business*

“Holy freakin’ moley! This is an AWESOME undertaking and Nogie King is NAILING it! Everything comes down to relationship. This is simply a fundamental life law. And amongst our core ‘manifest world’ relationships with people, there is the relationship with that all pervasive energy we call money. In this book, you will find new routes on a journey into yourself through money. New routes that will ultimately take you to new and wonderful places in relationship to money. Nogie King brings her amazing, eclectic and wide realm of personal and professional experience to this very readable, relevant and engrossing dialogue. As playful as she is, Nogie’s always been no-nonsense in her broad quest for what’s real and what works. She’s brought that laser focus to this work.”
